The Climate Ambition Accelerator is a six-month accelerator programme for companies participating in the United Nations Global Compact who are looking to make progress towards setting science-based emissions targets and create a clear path to address their organization’s transition to net-zero. Led by the United Nations Global Compact with support from Patrons Ørsted and Natura & Co, the Climate Ambition Accelerator aims to scale-up credible climate action across companies of all sizes, sectors and regions, enabling them to deliver on meaningful commitments to reduce emissions at scale.

No matter where companies are in their sustainability journey, the Climate Ambition Accelerator will equip them with the knowledge and skills they need to accelerate progress towards setting science-based emissions targets aligned with the 1.5°C pathway. Through the Global Compact Local Networks around the world, participating companies will gain access to global best practices, peer-to-peer learning opportunities, capacity building sessions and on-demand training.

**PROGRAMME BENEFITS**
