

OUR MISSION

The **United Nations Global Compact Network France** aims at engaging companies of all sizes in France towards greater corporate social responsibility, based on the universal, inclusive, and voluntary approach of the United Nations Guiding Principles for Business. **Our target is to accelerate the transformation of private-sector business models and value chains** by taking account of societal, environmental, and ethical risks, along with seizing opportunities aligned with the **2030 Agenda for Sustainable Development**.

WHAT WE ARE, WHAT MAKES US UNIQUE

The **UN Global Compact Network France is the national branch of the United Nations Global Compact**, the exclusive representative of the United Nations (UN), working to amplify the private sector's collective impact in favour of corporate social responsibility and the 2030 Agenda.

Our actions are founded on a common language, a universal framework, formed by the **United Nations Global Compact's Ten Principles and the 17 Sustainable Development Goals (SDGs)**.

Our pragmatic, action-focused approach is **aimed at French companies of all sizes, sectors and locations**.

We have the capability to become **a key interlocutor for the private sector**, as well as for public authorities, and to federate all stakeholders committed to a voluntary approach towards sustainability.
